DUNES OF ICA OR PARACAS

The dunes of Paracas are private circuits with exclusive access for our buggies. This desert consists of four major dunes where you can decide on the kind of ride you wish, whether exploring the beautiful landscape of wind-formed dunes by riding on a flat surface, or enjoying an adventurous and exciting route by riding through a circuit that goes up and down dunes in the height of your choice. We will take a break for you to have the opportunity to take snapshots and practice sandboarding too.

THE PROGRAM INCLUDES

In Paracas: transfers to and from the hotel. In Ica: departures from Las Dunas Hotel / Driver and tour guide in Spanish / 1 hour Adventure / Protection mask for eyes and helmet

THE PROGRAM DOES NOT INCLUDE

Overnights at Paracas or Ica

The dune buggy is a vehicle which original bodywork has been changed for a tube structure by eliminating doors, roof and windows, and by exposing the engine and other parts of the bonnet. Thus, it results in a very light-weight vehicle with a highly improved stability.

Legendary PERU

NASCA: CHAUCHILLA

Departure from the city of Nasca to the town of **Taruga**, from where you have a view of the whole valley and the city, besides having plenty of aqueducts built by the ancient Nasca culture. After this village, we reach the **Chauchilla** necropolis, whose tombs and mummies are in good condition despite its age. There are dune formations close to Chauchilla, which have gentle slopes and are ideal for practicing sandboarding and riding dune buggies. After the experience, go back to Nasca.

NASCA: DUNES OF USACA

Departure from the city of Nasca to the archaeological site of **Cahuachi**, and then continue to **Estaquería**. Continuing the trip, we go by ancient forests of huarangos, until reaching the **dunes of Usaca**, sea of dunes and natural barrier between the fertile valleys and the real desert. This is where we will enjoy one hour of sandboarding. After the fun, we will go through the valley of Poroma and then return to Nasca.

NASCA: CERRO BLANCO ^{BL}

Departure from the city of Nasca toward the foothills of the Peruvian Andes (30m). Upon reaching the point, take a walk uphill that will demand 4 hours to reach the summit of **Cerro Blanco** (2.078mt/6.820ft). Once in the place, practice some sandboarding in many dunes on the top. Therefore, after receiving all safety instructions on how to use the board and some styles, we will be ready to go down the hillside, the **slope of which is about 1.000 meters**. After reaching the edge of the dune, walk 1 hour to meet with transportation that will take us back to Nasca.

NASCA: SAN FERNANDO ^{BL}

Departure from the city of Nasca to the archaeological site of **Cahuachi** and then continue to **Estaquería**. Continuing the trip, we go by ancient forests of huarangos, until reaching the **dunes of Usaca**, sea of dunes and natural barrier between the fertile valleys and the real desert. This is where we will enjoy one hour of sandboarding. After the fun, we continue our journey through the pampa **Huaracanga**, where there are fossils of whales. After crossing the coastal belt of hills that protect from sea winds, we arrived at **Punta San Fernando**, located in a bay that houses and protects some 353 species of animals, such as sea lions, Humboldt penguins, otters, among others. Furthermore, this place is considered the last coastal habitat of the condor. In the late afternoon, return to Nasca.

PROGRAMS FROM NASCA INCLUDE

Transfers / Transportation in 4x4 dune buggies / Sandboards / Logistics rescue if necessary / Sandboard instructor / Insurance policy in case of accident / Box lunch for programs with more than 6 hours / Entrance to attractions: Chauchilla and San Fernando

PROGRAMS FROM NASCA DO NOT INCLUDE
