LIMA: SOLE / CHITA FISHING **L**

Although we can fish sole, chita and other species all year long, the best time is between September and May. Based on both fishing reports and the sea conditions on the fishing day, the best location will be determined. However, some possible destinations are Punta Salinas, Playa El Zancudo and Playa Grande in Huacho, to the north of Lima, and Pasamayito, Sarapampa and Cerro Azul, to the south of Lima.

The day begins at 6am with the transfer from the hotel to the selected fishing location. During the trip, breakfast will be served. Once there, we will prepare the fishing equipment and start fishing. We will have a box lunch at noon. We will resume fishing in the afternoon until we return to Lima where we will arrive at 6pm approximately.
